Certificate of Dealership

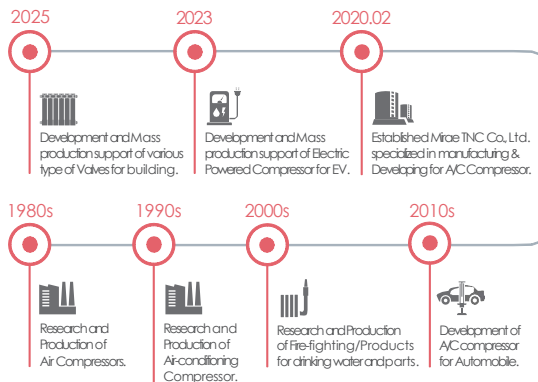

1 | Company introduction

Mirae TNC Co., Ltd. is a company that specializes in materials and parts established in 2020. Based on practical experience in the compressor and automobile industry, Our purpose is to supply various parts and products for Automobiles, Refrigeration/air conditioning, Fire fighting and General machinery, as well as to develop the products, technology development, and technical support. Mirae TNC Co., Ltd. wants to contribute to the cost reduction, technology improvement, and quality improvement required by your company, so please contact us anytime freely. Mirae TNC Co., Ltd. will be a company that strives to become a cooperative relationship that pursues win-win to get better together. Thank you.

CEO / Mirae TNC Co., Ltd.

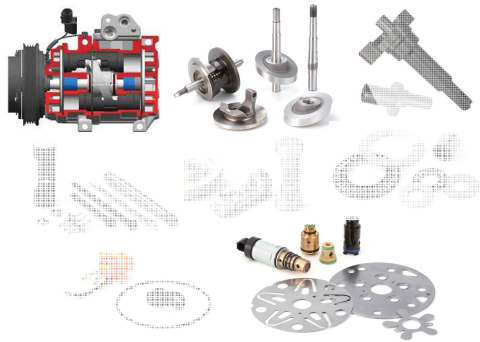

History

2 | Compressor (Air Conditioning for Automobile)

Precision parts and functional parts required for air conditioning refrigerant compressors and air compressors can be supplied as precision processed finished products to meet customer's needs.

Air-conditioning Compressor for Automobile & Parts (Mechanical type)

A/C Compressor for Automobile & Parts (Electric Powered type)

3 | Parts for Machinery

3-1 | Basic Materials(Casting)

According to the customer's required specifications, it can be supplied by completing precision processing while satisfying the chemical composition and mechanical properties of the casting(GC250, GCD700, ADC12 etc)

Cast iron/casting

- Hydraulic parts, valves, automobiles, compressors and general mechanical parts.

Aluminum die casting

- Automobiles, Compressors, and General Mechanical Parts

Stainless Steel Precision Casting

- Casting, Impeller, Blower parts

Stainless Steel Piping

- Valve and Piping

3-2 | Basic Materials(Sintering)

It is possible to supply high-strength and high-precision processed products that secure high-strength and wear resistance to meet the precision powder molding specifications of automobile and mechanical parts.

Parts for A/C Compressors, and General machinery

Parts for Compressor

● Valve plate, Scroll set

3-3 | Basic Materials(Forging)

Cold forging and hot forging products which can be supplied as processed finished products for various forging products such as automobile pulleys, bearing housings, and compressor

Parts for Automobile Engine

○ Pulleys, Bearing housings

4 | Bearings

Our Rolling bearings, an official dealership for Shanghai C&U Int'l products with proven quality excellence in automobiles, compressors, machine tools and general machinery and Dry bearing from ZOB Bearing Company guarantee the best quality.

An Official Designated Dealership of Shanghai C&U Int'l and ZOB Bearing Company.

Bearing

⊙ Bearing for automobile

⊙ Precision bearings for machine tools

⊙ Bearing for home appliances, motors

⊙ Dry(Oiless) bearings

5 | Elemental Parts

It is possible to supply parts to meet customer requirements for various elemental parts required in automobiles, compressors and general machinery.

Dustproof Rubber Products

● Center support bearing

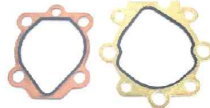

● Shock absorber bush

● Rubber shield

● Steering pump washer seal

Sealing Material

⊙ Gasket, Sealing products

Friction Material

⊙ Brake pad, products

Valve Parts

6 | Valves

Brass Valve

Stainless Steel Valve

It is a Precision Casting Product that meets the specifications of materials such as SUS304, SUS316, and SUS316L, and can be customized for Fittings, Ball Valves, Gate Valves and non-standard products, as well as special orders such as Pump Impellers and Housings.

Stainless Valve

- Ball Valve, Gate Valve, Globe Valve

7 | Fittings

Products suitable for drinking water with functional stability and material safety

PEX Fitting

PB Fitting
